SUMMARY

Frontend developer with over two years of programming experience. Over the past year, I have focused extensively on React technology, achieving a strong command over code functionality and React concepts. Additionally, I am committed to continuous improvement through self-study and practical projects, always striving to enhance my technical skills. I am prepared to contribute as a valuable and impactful member of web development teams and to continue advancing my professional growth.

EXPERIENCE

- frontend developer   june2023-current
  Implementing UI Features
  Integrating with APIs
  creating reusable and responsive components

TECHNICAL SKILLS
